Career Objective

Pre-Final-year Computer Science student at Chitkara University with a 9.45/10 CGPA and strong foundations in Data Structures, Algorithms, and object-oriented design. Experienced in building full-stack applications and IoT systems, with exposure to cloud platforms including AWS and Nutanix. Seeking a software engineering role where I can apply my technical skills, contribute to scalable product development, and grow within a high-performing engineering team.

Projects

StudyOS- Academic Course & Assignment Management System | [GitHub](#) | [live](#)

- Unified 5+ academic tools (GPA Calculator, Timetable, Assignments, Pomodoro Timer) into a single platform, eliminating the need for multiple apps.
- Secured user sessions using JWT via HttpOnly cookies, reducing auth vulnerability surface across a Node.js/Express + Mongo db backend.

IOT based -Smart Curtain | [linked In](#)

- Reduced manual curtain operation to zero through temperature-based automation and alarm/sunrise-sunset scheduling via the Blynk mobile app.
- Demonstrated live at DICE Technovate 2025, validating real-world reliability of the system in a competitive showcase environment.
- Led a 5-member team from hardware prototyping to final deployment, delivering a fully functional smart home solution end-to-end.

Technical Skills

- **Programming Languages:** C, Java, JavaScript
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Software Design Patterns
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Frontend:** React (Vite), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST API Design
- **Cloud Platforms:** AWS (foundational), Nutanix Multi-Cloud
- **Tools & Platforms:** Git, GitHub, Postman, VS Code

Education

Chitkara University, Rajpura, Punjab Aug 2023 - May 2027 (Expected)

Bachelor of Engineering — Computer Science & Engineering | CGPA: 9.45 / 10

Certifications

- **Nutanix Certified Associate — Multi-Cloud Infrastructure** [\[view Credentials\]](#)
